Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species: Group I (claims 1, 4-8, 25, 26) is directed towards a data processing apparatus with a plurality of input, output and compression/expanding devices and the assignment of the plurality of compression/expansion devices depending on the job discrimination portion classified in class 710, subclass 2. Group II (claims 2,3) is directed towards a similar invention to Group I, but is a printing apparatus, classified in class 358, subclass 1.9. Group III (claims 9-16, 27, 28) is directed towards a data processing apparatus with a plurality of compression/expanding devices and the assignment of the plurality of compression/expansion devices depending on the job discrimination portion classified in class 710, subclass 2. Group IV (claims 17-24, 29, 30) are directed towards an image processing apparatus comprising a scanner and an input port for gathering data and a plurality of compression/expanding devices and the assignment of the plurality of compression/expansion devices depending on the job discrimination portion, classified in class 358, subclass 1.15. The species are independent or distinct because they are in different field of search and/or are different inventions as disclosed above. Also, Groups I and III are directed towards data processing apparatuses, while Groups II and IV are directed towards image processing apparatuses.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
